

SECURITY POLICY

At WACME Pty Ltd, we make sure that all your personal information you give us is secure. A customer's credit card information is one of the most important things they can provide you with, so when buying online they need to be sure that their card information is secure. In the security policy we let you know how we keep your card information secure.

How do we know our credit card information we give you is secure?

Our website www.wet1.com.au, uses SecurePay to assure that none of this credit card information is spread. We never have full access to this information as it is going straight through SecurePay. This helps reduce our business risk and help our customers feel more secure buying our products online. So customers have a better idea; how SecurePay works, is that they ensure that the credit card information is transmitted only between our bank and the customer's bank and the various credit card companies involved.

What do I do if I have concerns?

Send us an email or give us a call and we will answer any questions you may have regarding the safety of your credit card.

Find our contact information on our contact page.
